

Part 1 (2) Task 3: Activity Sequence Process

Ticket Sales Process

The diagram shows Tongariro Cinema's ticket sales process. Involving a customer purchasing a ticket for a movie through a ticketing system and paying for them using a separate payment system. Thus, the sequence diagram shows the order in which these activities take place, with the customer, ticketing system, and payment system represented as objects, and the interactions between them shown as arrows.

Steps involved in this ticket sales process includes:

1. Customer choose movie they want to watch.
2. Customer selects the seats they want to purchase.

3. Customer enters their personal details for the ticket purchase.
4. Customer reviews their order before submitting it.
5. Customer submits order.
6. Payment system process the payment for the order.
7. Ticketing system delivers the tickets to the customer.
