

Task 12

Team Members: Cameron, Camila, Nicolle, and Lana.

Overall, the team did an excellent job. I am very pleased with the work that we accomplished as a team. It was evident that each of us brought our unique skills and perspectives which allowed us to create a truly collaborative environment.

While we excelled, in some areas such as our ability to problem- solve, adapt to changes in the project, excellent work ethic and good communication. Communication is an area where we could improve.

However, even with the small misunderstanding and miscommunication, I am impressed that you all showed empathy and understanding towards each other. And that made it a pleasure to work alongside you. I am also appreciative of how responsive, open to feedback we were.

Overall, a massive thank you to us for our hard work and dedication to the project!
You all are MVP!

Regards,

Lana
